

Arkansas Regional Service Committee  
WebMaster Report  
February 02, 2002

Hello Family!

I've created a scrolling status bar; the bottom of the browser screen, now scrolls the following text:

"Welcome to the Official Website of the Arkansas Region of Narcotics Anonymous . . . On-line meeting information . . . Arkansas Region Meeting List ~ Print-Ready download . . . Activities ~ Inside and Outside Arkansas . . . Help Lines Numbers ~ Region, Area & Loner Group . . . ARSCNA ~ What, When, Where . . . And Coming Soon ~ Links to other NA Websites . . ."

Changes have been made to the Meetings and Activities pages of our <arscna.org> official Web site. Activities have been added as requested and removed when they are over. Changes to meetings that have been requested through e-mail communication and from the Phonenumber listing have been posted.

The problems associated with the statistics server for our domain have been repaired. There is quite a bit of interesting information gathered in the report that are set up to generate to the Web Admin e-mail account weekly. So far only one week of information has been generated. I will report in further detail at the next RSC once I've had a chance to study it in a little more depth.

The page to NA site links is still in the developmental stage but should be up and running by next RSC.

Eleven e-mail accounts have been set up for each of the RSC Administrative Committee members and the RSC Subcommittees. I distributed individual envelopes to each of the members holding these positions today and an envelope was given to the RSC Chair for archive purposes. These envelopes contain the web address for accessing our e-mail server, the user id and password for each position or committee and a copy of the auto-response and signature that was set up for the account. If anyone has any trouble accessing or maneuvering within these accounts, please feel free to contact me.

In Loving Service, Valerie Mc., ARSCNA WebMaster, [WebMaster@arscna.org](mailto:WebMaster@arscna.org)
