

Arkansas Regional Service Committee
WebMaster Report
June 08, 2003

Hello Family!

Instead of printing the numerous pages of the website, I brought it loaded on a laptop computer this time. It is not actually hooked-up to a service provider so you won't be able to connect to links outside arscna.org but can still browse the site on an actual computer. Both the mouse and the touch pad are operational. Feel free to browse and if you need help in using the computer, see someone with experience.

Changes to meetings from the Phonenumber listing have been posted. Activities have been added as requested and removed within a week after they are over. There are currently no activities listed with the Regional Phonenumber according to the answering service. The minutes for the March 2003 RSC have also been posted to the site.

I'm still working on correction of code for consistency of the look of our site on the less tolerant Netscape browser. I put the drop-down menu to the right of the screen on the activities pages to help with viewing of specific activities, which open at the very top of the browser window when using links from the calendars

With regard to maintenance of the NAWS database, I have still not received any Area Service Committee information update forms from our member Areas.

The WebMaster Onesuite Phone Card still has \$17.07 or approximately 589 minutes remaining.

In Loving Service, 
Valerie Mc., ARSCNA WebMaster
