

Hello Family!

The laptop computer is working once again and set-up so the website can be viewed.

Changes to meetings received from the Phonenumber have been posted. Activities have been added as requested and removed within a week after they are over. The minutes for the September 2003 RSC have also been posted to the site. Changes to the background coloration of the drop-down menu have been made. Instead of a white background which was difficult to distinguish from the page itself, the menu blocks are now shades of blue. As a result of the decision to close and remove e-mail addresses for use of other regional trusted servants, the 'Contact Us' item has been changed to 'Contact WebMaster' with several options in the submenu.

With regard to maintenance of the NAWS database, all Area RCMs and/or ASRs received an Area Service Committee information update form from me in the mailing of my reports from the last RSC. I have still not received any completed forms from our member Areas. Foothills Unity Area's Recovery Connection group did send me a meeting update form. I updated the website and the NAWS database and reminded the group contact to call the phonenumber with these changes.

At the next RSC, I hope we are able to work on meeting information updates in conjunction with the Outreach Committee. I will plan to bring meeting update forms for all meetings listed under the Arkansas Region on the NAWS database. This will be yet another attempt to get correct information listed with the regional phone line, regional meeting lists, regional website and the NAWS database.

The WebMaster OneSuite Phone Card still has \$17.07 or approximately 589 minutes remaining.

A few questions came into the WebMaster e-mail and replies were sent. The subjects of these e-mails regarded guidelines on serving two NA groups, where to get speaker tapes or CDs, a plea for helping a son who won't admit it or seek help and another requesting help with asking someone to sponsor them.

A few general e-mails have been received and I have attached them for you to make available to your groups for informational purposes. They include the following 'topics':

1. NEW LICENSED VENDOR FOR CONSIDERATION AT YOUR NEXT FUNCTION ...
2. NEW: GREEK WEB SITE ... (this one is posted to our website)

These will not be included in this report online because they contain addict's personal information. For those of you viewing this report online, if you would like a copy of the e-mails, please contact WebMaster@arscna.org.

In Loving Service, 
Valerie Mc., ARSCNA WebMaster
